

COMAR 8 SINGLE/DOUBLE GLAZED,
STOREFRONT, ENTRANCE
& PARTITION SYSTEM

COMAR 8

A fin/beaded aluminium system which demonstrates unique features, making it the most versatile on the market. Variable angle corners, a choice of sash rails and 3-way glazing, provide the specifier with design scope and versatility.

COMAR 8

SINGLE/DOUBLE GLAZED, STOREFRONT, ENTRANCE & PARTITION SYSTEM

- Fin/beaded versatility
- Internal/external glazing option
- Glazing thickness from 6mm to 35mm, glass or panels
- Optional beads and carriers available for special conditions

■ MATERIALS

Extruded profiles are to BS EN 515, EN 755 and EN 573. Glazing gaskets and seals are extruded from EPDM.

■ FINISHES

Aluminium profiles are finished in the following specifications: silver, bronze and black anodising to BS1615 or BS4842. Polyester powder coating to BS6496.

■ CONSTRUCTION

A two part channel and plate mullion clip together to form a 100mm x 45mm box section enabling modular sash construction. All main extrusions have four screw fixing ports.

■ GLAZING

The system may be internally or externally glazed. Wherever possible, glass or panels should be internally glazed against a 15mm high integral fin for maximum security.

Loose fins and double-beaded profiles are available to alleviate notching of mullions.

Four clip-in beads, used with loose or fixed fins and a wide range of gaskets allow glazing of 6mm to 35mm thick glass, or panels. Optional beads and carriers are available for special conditions.

■ PERFORMANCE

COMAR 8 Framing Systems conform to recognised industry standards adopted by trade associations, i.e: The Council for Aluminium in Building.

■ IT'S ALL IN THE TECHNICAL MANUALS...

The system also conforms to many of the requirements for aluminium windows specification BS4873.

■ TECHNICAL BACK-UP

An experienced Sales Team covers the UK while the Technical Department offers an unsurpassed design and installation advice service to designers, specifiers and fabricators. Simply ring 020 8685 9685.

■ FOR MORE INFORMATION

To find out more about this or any other Comar Architectural Aluminium System, or to obtain your personal copies of the COMAR TECHNICAL MANUALS call Madeline Whitehead on 020 8685 9685 or fax on 020 8646 5096.

The Comar Technical Manual is packed full of information on all

Comar Architectural Aluminium Systems, including: specifications, profile broadsheets, composites, framing limitations and glazing options.

Comar projects are carried out using approved fabricators throughout the UK and Europe, supervised by Comar Architectural Aluminium Systems, where specified.
